

Why should I attend?

- meet leading experts from USA, Japan and Europe
- receive latest information on space elevator systems and carbon nanotube fibres
- witness potential spin-offs for industrial application
- learn about NASA's Space Elevator Challenge
- enjoy insight into one of mankind's greatest endeavors

Prof. Shanov presents world record CNT growth at 2007 conference

Solar energy climber at NASA beam power challenge Salt Lake City

2nd International Conference On Space Elevator & Carbon Nanotube Tether Design 6-7 December 2008 Luxembourg

Fonds National de la
Recherche Luxembourg
